Customer Problem Statement Template:

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love.

A well-articulated customer problem statement allows you and your team to find the ideal solution for the challenges your customers face. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

EXAMPLE

I am (Customer)	I'm trying to	But	Because	Which makes me feel
a daily commuter who relies on public transport to get to work	reach my office on time every morning	buses are frequently delayed with no live updates	the transit app doesn't show real-time locations	anxious and unable to plan my day with confidence

Example

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	an everyday online shopper who wants to support local and small-to-medium retailers	find good quality products at fair prices from sellers I can trust, with a smooth checkout	most e-commerce apps feel generic, cluttered, and make it hard to know if a small seller is reliable	existing platforms are built around large, mass-market catalogs and templated storefronts, not a curated, boutique-style experience	hesitant to shop from smaller sellers, and frustrated by clunky search, filtering, and multi-step checkout flows

PS-2	a small-to-medium retail merchant trying to grow my business online	sell my products digitally and manage orders, inventory, and revenue without hiring a technical team	affordable e-commerce solutions rarely give me a proper dashboard to track my business	most platforms either lock small sellers into expensive plans or offer only bare-bones listing tools with no analytics	overwhelmed and left behind, unsure whether going online is worth the effort
