

Project Design Phase-II

Data Flow Diagram & User Stories

Date	26 June 2026
Team ID	Solo
Project Name	ShopEZ - E-Commerce Application
Maximum Marks	4 Marks

Data Flow Diagrams:

A Data Flow Diagram (DFD) is a traditional visual representation of the information flows within a system. A neat and clear DFD can depict the right amount of the system requirement graphically. It shows how data enters and leaves the system, what changes the information, and where data is stored.

ShopEZ — DFD Level 0 (Context Diagram)

User Stories

Use the below template to list all the user stories for the product.

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance criteria	Priority	Release
Customer (Mobile user)	Registration	USN-1	As a user, I can register for the application by entering my email, password, and confirming my password.	I can access my account / dashboard	High	Sprint-1
Customer (Web user)	Login	USN-2	As a user, I can log into the application using my email and password	I am redirected to the homepage on success	High	Sprint-1
Customer (Web user)	Catalog Browsing	USN-3	As a user, I can search products and filter by category	I see matching products update live	High	Sprint-1

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance criteria	Priority	Release
Customer (Web user)	Product Details	USN-4	As a user, I can view a product's specifications and customer reviews in separate tabs	I can switch tabs and see correct content	Medium	Sprint-2
Customer (Web user)	Cart Management	USN-5	As a user, I can add, remove, or update quantity of items in my cart	Cart total updates instantly and syncs to my account	High	Sprint-2
Customer (Web user)	Checkout	USN-6	As a user, I can complete checkout in 3 steps and pay via Card, UPI, or Cash on Delivery	I receive an order confirmation with an order ID	High	Sprint-2
